PROFESSIONAL EXPERIENCE

Junior React Developer - High Ground

Mar 2022 - Apr 2024

<https://dss.com.mm/>

- Develop reusable, testable, and efficient code to enhance project maintainability.
- Work closely with the development team to design and implement new features.
- Identify, troubleshoot, and resolve technical issues efficiently.
- Participate in scrum meetings and follow Agile development methodologies.
- Contributed to the frontend development of multiple client projects.

Intern - High Ground

Dec 2021 - Mar 2022

<https://dss.com.mm/>

- Assisted in writing clean, reusable, and efficient code.
- Collaborated with the development team to design and implement new features.
- Gained valuable technical knowledge and hands-on experience in software development.

EDUCATION

Stamford International University

GPA - 3.07/4.0

Bachelor of Science in Information Technology

- Relevant coursework in Information Technology, Project Management and Design System.

ACTIVITY

Stamford Syntax Club Workshop Sessions

Bangkok, Thailand

Mentor & Guest Speaker

- Assisted as Mentor in “**Basic Web Development**” workshop.
- Acted as Guest Speaker and Mentor in “**Git and Github Fundamentals**” workshop.

PROJECT HIGHLIGHTS

Portfolio Website

<https://portfolio-de-oak.netlify.app/>

JavaScript, Nextjs, Supabase, GSAP

With AI chat bot included, my greatest effort is put into this pretty and minimalist portfolio website.

- Designed and developed a minimalist, SEO-optimized portfolio website using Next.js for enhanced discoverability and performance.
- Integrated Gemini AI via OpenRouter to power a conversational chatbot for real-time interaction.
- Utilized GSAP for smooth, animation-rich transitions to improve UX.
- Used AI-generated visual assets to maintain thematic consistency throughout the site.

Urban Coffee Club Website

<https://urban-coffee-club.vercel.app/>

JavaScript, Nextjs, GSAP

A modern and responsive coffee shop website focused on showcasing my animations skills.

- Built a fast, modern, and fully responsive coffee shop website to showcase animation design skills.
- Implemented GSAP animations for engaging page transitions and UI interactions.
- Used Vite.js for rapid development and hot module replacement.
- Created a clean and intuitive UX tailored for a restaurant business use case.

Shal Phyoke POS Web Application

<https://shal-phyoke-pos.netlify.app/order>

JavaScript, Nextjs, GSAP, Tailwind

A simple and functional POS system written for a real-life Burmese restaurant named "Shal Phyoke".

- Developed a functional and lightweight POS system for a real Burmese restaurant.
- Built with JavaScript, Next.js, and Supabase for smooth real-time operations.
- Handled core features like order processing, inventory tracking, and authentication.
- Enhanced UI with GSAP animations for a more user-friendly experience.

ADDITIONAL SKILLS

- **Soft Skills:** Communication, Attention to Detail, Teamwork, Adaptability, Problem-solving
- **Languages:** English, Burmese, Japanese
